

SIGMOD 2017

May 14-19, 2017 • Raleigh, NC, USA

The annual ACM SIGMOD conference is a leading international forum for database researchers, practitioners, developers, and users to explore cutting-edge ideas and results, and to exchange techniques, tools, and experiences.

ACM SIGMOD 2017 solicits submissions for research papers, technical demonstrations, industrial papers, tutorials, panels, and workshops.

We invite the submission of original contributions relating to all aspects of data management defined broadly, and particularly encourage submissions on topics of emerging interest in the research and development communities.

The program will also include keynote talks by leaders in academia and industry.

All aspects of the submission and notification process will be handled electronically. The call for papers and detailed submission information will be available at http://www.sigmod2017.org
